

## Connecticut Vital Records

*Submitted by Sue and Jim Adams, AAFA #1129*

*The following records were copied from microfilm of the Barbour Collection of Connecticut Vital Records and the LDS Family History Center, Salt Lake City, UT. The Barbour Collection contains transcriptions of the records for 137 of 160 towns and were originally copied between 1918 - 1928.*

*The listings start at, or near, the founding of the town and continue to 1846 - 1868. Of the eighteen towns which had separate publications of their vital records, eight are duplicated in the Barbour Collection. The remaining town records were checked at the Family History Center, October 2002.*
