

New Zip Code 63031

We were advised by the United States Post Office on December 5, 1988, that our mail box, which is in a contract station, would be serviced by a different branch post office effective December 7. When addressing mail to the AAFA mail box, use Zip 63031 rather than 63032 as before. If you are using preprinted envelopes, please mark over the "2" with a "1". Because we made a substantial stationery purchase this year, it will take a while before all envelopes and other stationery are changed.
