

# AAFA Census Data

*This census report is a product of the AAFA census team. The initial list of names to be extracted was prepared from published census indexes and, in some cases, supplemented by unindexed entries. The every name extraction was performed using the microfilm as a source - then verified for completeness and accuracy.*

*The following data is not intended to reflect either the "true" facts or what descendant families believe to be the facts. It is also not guaranteed to be without error. Nevertheless, every attempt has been made to provide a complete and faithful representation of the information recorded on the original enumeration forms.*

*The order of the information in the two line family header for Nebraska and New Hampshire: the name of the post office or enumeration district, City or Township, and county. On the 2nd line: microfilm roll number, census page number, census dwelling or house number, census family number, and the enumeration date.*

*The order of the information in the two line family header for Oregon: the name of the post office or enumeration district, City or Township, and county. On the 2nd line: census page number, census dwelling or house number, census family number, National Archives Series M593 microfilm roll number, and the enumeration date.*

*The categories for Nebraska and New Hampshire on each line appear in the following order: name, sex, age in years or months (two columns), color (assumed to be white unless shown otherwise), birthplace, \*MSR, property, and occupation. In the case of infants, the age is expressed in months, in which case the year column is left blank.*

*The categories for Oregon on each line appear in the following order: name, sex, age in years or months (two columns), color (assumed to be white unless shown otherwise), birthplace, \*MSRV-PFB, property, and occupation. In the case of infants, the age is expressed in months, in which case the year column is left blank.*

*Column headings are not meant to line up exactly over the data but rather to give position relationship*
