

## AAFA Census Data

*The Census Committee has been quite active. We have received a wealth of information from them which we will continue in the next issue of AAFA ACTION.*

### “Alfords” in the 1860 Kentucky Census

*This census report is a product of the AAFA census team. The initial list of names to be extracted was prepared from published census indexes and, in some cases, supplemented by unindexed entries. The everyname extraction was performed using the microfilm as a source, and the extraction has been verified for completeness and accuracy.*

*The following data is not intended to reflect either the "true" facts or what descendant families believe to be the facts. It is also not guaranteed to be without error. Nevertheless, every attempt has been made to provide a complete and faithful representation of the information recorded on the original enumeration forms.*

*The order of the information in the two line family header: the name of the post office or enumeration district, City or Township, and county. On the 1st line: microfilm roll number, census page number, census dwelling or house number, census family number, and the enumeration date.*

*The categories on each line appear in the following order: name, sex, age in years or months (two columns), color (assumed to be white unless shown otherwise), birthplace, \*MSR, property, and occupation. In the case of infants, the age is expressed in months, in which case the year column is left blank.*

*\* Data collected in 1860 included information on marriage, school attendance and literacy:*

*M = married within the year*

*S = attended school within the year*

*R = can't read or write*

*Birthplace is shown with the approved postal abbreviations for states in the U.S. Foreign places, if applicable, were abbreviated as follows: EN = England, GM = Germany, IR = Ireland, etc*

*The association acknowledges the efforts of Robin Alford Sterling AAFA#0320, Margaret Windham AAFA#0031, Frances N. Walker AAFA#0380, Doris Alford Vetri AAFA#0303, Andrew L. Leath AAFA#0045, and Gilbert K. Alford, Jr. AAFA#0019 in the preparation of this report.*

*Alicia Roundy Houston, Member AAFA Hall of Fame*

*Senior Associate for Alford Censuses*

*213 McMasters Drive,*

*Monroeville, PA 15146*

*(Continued from page 9, Book Reviews)*

his first child is #1. Patsie Smith, as the second of Joanna's children is #12. She married Edwin B. Alford but he is not a descendant and does not get a number but their first child, Warren Jackson Alford is #121 whose first child Martha J. Alford is #1211 and so on.

When a significant new branch marries into the Dillon line, Bevin provides a boxed insert to introduce that line. For example when Edwin Alford is listed as the spouse of Patsie Smith, there is a box showing the family of Jacob Alford, the father of Edwin Alford. The book contains 76 such inserts.

Although the pages are not numbered (all references and the index use the identification numbers assigned to each person), the book does contain 685 pages which were numbered for my own reference system.

Just about anyone who has kin in Pike or Walthall Co., MS or Washington Parish, LA is likely to find some kin listed in this work.

The book has a soft cover, is comb bound, and costs \$40. When I last checked with him—Bevin had a very limited number of copies still available. Those interested in obtaining a copy should contact him at [bevincreel@aol.com](mailto:bevincreel@aol.com) or Bevin J. Creel, 25529 Highway 25, Franklinton, LA 70438 to determine the availability and latest ordering instructions.
