

# AAFA Census Data

## "Alfords" in the 1860 Census

Prepared by Alicia Houston and the Census Project Team

*This census report is a product of the AAFA census team. The initial list of names to be extracted was prepared from published census indexes and, in some cases, supplemented by unindexed entries. An every name extraction was performed using the microfilm as a source and the result verified for completeness and accuracy.*

*The following data is not intended to reflect either the "true" facts or what descendant families believe to be the facts. It is also not guaranteed to be without error. Nevertheless, every attempt has been made to provide a complete and faithful representation of the information recorded on the original enumeration forms.*

*The categories on each line appear in the following order: name, sex, age in years or months (two columns), color (assumed to be white unless shown otherwise), birth place, \*MSR, property value and occupation.*

*\* There may be any one of three entries:*

*M = married within the year*

*S = attended school within the year*

*R = can't read or write (or just W if can read but not write)*

*Birthplace is shown with the approved postal abbreviations for states in the U.S. Foreign places were abbreviated as follows: EN = England; NS = Nova Scotia; NB = New Brunswick; CD = Canada; GM = Germany; WN = West Indies; IR = Ireland; NW = Norway.*

*The order of the information in the two line family header: the name of the post office, township or political subdivision, county, and microfilm roll number. On the 2nd line: census page number, census dwelling or house number, census family number, and the enumeration date.*

*The Association acknowledges the efforts of Richard M. "Dick" Alford AAFA#0633, Tom Donnelly AAFA#0670, Doris Alford Vetri AAFA#0303, and Gil Alford AAFA#0019 in the preparation of Connecticut data and Tom Donnelly, AAFA#0670, William M. "Butch" Alford AAFA #0135 and Gil Alford AAFA#0019 in the preparation of Massachusetts data for this report.*
