

## Alfords in the 1850 North Carolina Census

Compiled under the direction of Alicia Roundy Houston, AAFA Genealogist

This is the first of many top quality Alford census reports. A 100% verification was done on this data to ensure maximum accuracy. Nothing has been added. We did omit information on ability to read and write and the value of property, as that information is of little genealogical value.

If an Alford was located in a household where the head of household had a different last name, the Alfords are in **bold type**. If someone other than an Alford was included in an Alford household, the name is included, as it was on the census. "Alfords" are listed first name last name. Non-Alfords are listed last name, first name. Following the name is the sex, age, birthplace (state), and profession.

All spelling variations are included. Note especially the Thomas Alford family in Chimney Rock, Rutherford Co. The last name is spelled Alford for the first members of the family and Halford for the last! If that doesn't make you search for alternate spellings when you're looking for your ancestor, nothing will!
