

## ***“Alfords” in Illinois Census - 1850***

This census report is a product of the AAFA census team. The initial list of names to be extracted was prepared from published census indexes and, in some cases, supplemented by unindexed entries. The everyname extraction was performed using the microfilm as a source – then verified for completeness and accuracy.

The following data is not intended to reflect either the “true” facts or what descendant families believe to be the facts. It is also not guaranteed to be without error. Nevertheless, every attempt has been made to provide a complete and faithful representation of the information recorded on the original enumeration forms.

The categories on each line appear in the following order: name, sex, age in years or months (two columns), color, birth place, \*MSR, property, and occupation.

\* There may be any one of three entries:

M = married within the year

S = attended school within the year

R = can't read or write (or just W if can read but not write)

Birthplace is shown with the approved postal abbreviations for states in the U.S. Foreign places, if applicable, were abbreviated as follows:

CD = Canada, EN = England, GM = Germany, IR = Ireland, NW = Norway, UN = unknown, etc.

The order of the information in the two line family header: the name of the local political subdivision and county. On the 2nd line: microfilm number, census page number, census dwelling or house number, and census family number. Third line: enumeration date.

The association acknowledges the efforts of Deena Cross, Susan Laubengayer, and Gilbert K. Alford in the preparation of this report.
