FIRST NAME LAST NAME RELATION AGE AGE MOB YOB CYOB COL BP
MOS

DRAFT "ALFORDS" IN 1900 OREGON CENSUS DRAFT
 RAW DATA WHICH HAS NOT BEEN VERIFIED BY AAFA CENSUS TEAM.
 Data extracted by Gil Alford.
 Computer input by Gil Alford.

Arranged by county, census volume, enumeration district and page as enumerated.

In 1900 questions asked included month and year born. That information is displayed immediately after the age.

CYOB or circa year of birth is not from the census. It has been added to this draft to assist AAFA researchers who may be working with this draft document. The CYOB is also used as a checkpoint to verify the enumeration data. The CYOB was calculated by the computer by subtracting age from 1900 and excluded for infants. The AAFA REFERENCE for the head of family has been included. The CYOB and REF will not be included in the final OFFICIAL version of the census.

Color is shown after the circa year of birth. It is assumed to be white unless otherwise specified. In most instances the color was recorded only for the head of the household.

Column headings not meant to line up exactly over the data but rather to give position relationship
