

09/02/2001 19:13:16

**DRAFT LIST OF "ALFORDS" IN THE 1910 CENSUS OF North Carolina
RAW DATA WHICH HAS NOT BEEN VERIFIED BY AAFA CENSUS TEAM.**

Data extracted by ~~_____~~.

Computer input by ~~_____~~.

Arranged by county, census volume, enumeration district and family as censused.

For most subjects the age is expressed in years immediately after the sex entry.
In some cases - particularly with infants - the age is expressed in months in
which case the age column is blank. The age is expressed in months in the next
Age is sometimes expressed in months, the seldom used column immediately after age.
column.

CYOB or circa year of birth is not from the census. It has been added to this
draft to assist AAFA researchers who may be working with this draft document.
It was calculated by the computer by subtracting age from 1910 and excluded for infants.
It will not be included in the final OFFICIAL version of the census.

Color is shown after the circa year of birth. It is assumed to be white unless otherwise specified.
In most instances the color was recorded only for the head of the household.

Birthplace is shown with the approved postal abbreviations for states in the U.S.
Foreign places were abbreviated as follows:
CD = Canada, EN = England

Column headings not meant to line up exactly over the data but rather to give position relationship

LAST NAME	FIRST NAME	RELATION	AGE	AGE	CYOB	COL	BP
				MOS
