

DRAFT

09/27/1998

Initial output of some of the "ALFORDS" found in the 1920 North Carolina Census (Soundex Version)

This data HAS NOT been reviewed or verified by the AAFA Census Team.

Data extracted from microfilm by Nancy Alford Dietrich.?????????/

Data keyed into computer files by Harris M. Alford.?????????????/

Data sequence in county, census volume, enumeration district and census sheet. When City and or street was listed it appears on second line after Vol ED and Sheet. Family data sequence is last name, first name, relationship, age, CYOB color where given, place of birth and when appropriate data on citizenship. If age was expressed in months the number of months is column following age. The circa year of birth was calculated by computer by subtracting age from 1920.

Approximate year of birth and AAFA Reference were included to assist AAFA researchers and are not part of the official census.

First Name Last Name Relationship Age Mo CYOB Color Birthplace Citizen
