

## **“Alford” Deaths in New Mexico, 1899-1949**

Lynn Shelley, #0484

These records are from the New Mexico Death Project at the New Mexico USGENWEB site. This project started in 2000 and is assumed to be on-going, however it may be that the Privacy Act and New Mexico laws restrict release of these records until a certain number of years after the fact.

**The age is supposed to be YYM (first two columns age in years with the last column adding the number of months). For those which are two numbers only, it is not known whether that is YM or even MD (months and days).**

As in all transcribed records, there is a possibility of typos and misinterpretation of the spelling of names.
