

# Index By State

This U.S. Directory of Alford families lists the current names and addresses of over 10,397 households in the United States. It is an invaluable tool for finding long lost members of the family or conducting research on your family name. By contacting the households listed, you can discover which of these Alford families could be related to you. It is particularly helpful in terms of matching your surname with a given locality.

The entries in this section are arranged geographically by state. To locate a specific household, first look up the state in the index, then refer to the first name alphabetically.

NOTE: These names and addresses have been extracted from various national sources such as telephone listings, automobile registrations, election rolls and other public records. This information has been updated annually in order to maintain the most current resident records available. In rare instances, however, families who should have been listed in the directory are missing. This may be due to the fact that one out of every ten residents moves to a new address each year, or because of errors in the original sources.

## Halbert's 1996 Alford Directory

The next several pages were taken from Halbert's 1996 Alford publication. It is their directory of the Alford's living in North Carolina at the time.

Halbert's somewhat annual publications were used through out the 1980's and 1990's to build the base of Alford contacts that has grown into the Alford American Family Association.

Fortunately this is being provided to you in PDF format, and you may use your Adobe Reader to enlarge the page to aid in reading.
