

This is the first public version of this genealogy—which at this time is still a work in progress. It does include all generations, but in cases where we do not have the death date for a person who would be 100 years old or younger then details have been excluded to protect their privacy. Those who might want to work with us on data for these folks, or for any others, should send an email to alford_staff@alfordassociation.org with subject “Green Berry Alford 1787.” Report corrections and additions to the aforementioned address.

Generation One

1. **Green Berry Alford**, b. Jan 20 1787 in North Carolina, d. Mar 8 1875 in Randolph Co., NC, buried in Franklinville United Methodist Church Cemetery, Randolph Co., NC, occupation farmer.

His birth date comes from the gravestone in Randolph Co. His marriage information comes from two different published sources of NC marriages. He was listed as Green, the bondsman was John Thompson and the witness was B.S. King. It is supposed that since he married in Wake Co that he was also born there, but that may not be so. In the 1790 census of Wake Co. there were three households with males under age 16: Hudson, Lodwick and Warren. Had he been born in neighboring Franklin Co. then the possibilities increase to: Ansel, Kinchen, James, Job, John, Lodwick & Lucy. Lucy is out since her husband, Julius, died before Green was born.

In 1860 Randolph three females were enumerated who were not listed elsewhere: Vicy b. 1801, Mary b. 1838 & Rachal b. 1843 Is this perhaps a daughter-in-law and her children?

in 1870 who is the 8 year old Sena enumerated with the family?
