

Descendants of John Alford and Jane McElhattan

[This is a new genealogy that has been in process for several years. It is now another work in progress and is known to be incomplete and with some error. This online version has had generations six and seven removed in an effort to protect the living. If you have good reason to have a copy of the complete version with the living explain it and you may be able to have it. Send your email to alford_association@sbcglobal.net. The previous online version had 4 generations, 24 pages and 368 registered descendants. This version has 5 generations, 673 descendants and 41 pages without index. Some male Alford descendants of this branch have taken the Y-DNA test and their results match those of descendants of the Alfords of early 1700s New Kent Co., VA. We need more Alford Y-DNA participants. For those who may print this and use it as an off line reference an index of the persons listed can be found at the end of the genealogy. Please send your questions, additions and changes to the address above. December 2010]

1. **John Alford** #1 b. about 1786, North Carolina or maybe Tennessee, m. Jan 13 1811, in Grainger Co., TN, **Jane McElhattan** #2, b. about 1791, North Carolina, (daughter of John McElhattan #364 and Elizabeth _____ #365) d. after 1860, Carroll Co., AR. John died 1860/70, Carroll Co., AR.

A Grainger Co., TN record states that in November 1804 he was age 18, an orphan. He was bound to Thomas Mann to learn art, trade and master of millwright. The Historical Records Survey, Tennessee, RECORDS OF GRAINGER COUNTY: MINUTES OF COURT OF PLEAS & QUARTER SESSIONS VOL. 2 1802-1812 (Nashville, TN: Privately printed, 1929)

Family "legend" says that about 1852 he moved to Arkansas, and he appears there in 1860 Carroll co. living with son (proved by 1850 Roane Co. TN census) Thomas H. Alford and Thomas's family. Supposedly when Thomas enlisted in the CSA, they went back to TN, but no further record of them has been found.

Census: 1860, August 30, Crooked Creek, Carroll Co., AR, page 848, house 1071, family 1045 (name spelled Alfred): John 73 NC, James 69 NC, Thomas H. 27 TN, Jane 20 TN, Franklin 2 AR and Mary G. 9 months AR. [Although the census shows James M 69 NC it is suspected that this should be Jane F 69]

Children:

- + 2. i **Elizabeth Alford** #597 b. about 1813.
- + 3. ii **James C. Alford** #31 b. about 1815.
- + 4. iii **Robert Cannon Alford** #4 b. Dec 9 1816.

- + 6. v **Jane Alford** #36 b. Apr 30 1820.
- + 7. vi **John M. Alford** #5 b. Feb 9 1821.

10. ix **Luisa Alford** #7 b. 1830, Tennessee, m. Sep 9 1852, in Meigs Co., TN, **James Beady** #618. Luisa died before 1889.

In 1850 Roane Co. TN census, she is 20. There is a marriage of a Lemsea? Alford to James Beady (Beatie??) on the given date in our compilation of ALFORD MARRIAGES IN TENNESSEE.

According to history mentioning parents, she was deceased by 1889 and she may have died not long after her marriage. If husband was John Beady/Beattie, he is not found so far in TN or AR in 1860.

m: Alford Marriages in Tennessee (AAFA database) lists a marriage of a Lemsea Alford to James Beady (Beatie?) on this date. She is still at home in 1850.

- 12. xi **Margaret Alford** #9 b. about 1835, Tennessee.

Nov 3 1889, Delta County, Texas, buried: Delta County, Texas?. Elizabeth died about 1840, Roane Co., TN. According to descendants of James A. Winton, he married sisters, first he married Elizabeth Alford and when she died, he married her sister, Jane Alford His first child with Elizabeth was named William Alford Winton. Was John's father named William or was Elizabeth a William Alford's child instead of the daughter of John and Jane McElhatten Alford?? Obviously the naming of the first son as William ALFORD Winton does indicate that Elizabeth was an Alford. Elizabeth may have died in childbirth with John Franklin, b.Dec 1839.
