

"Alford" Marriages In Alabama

A similar list was published in AAFA ACTION, Winter 1995, Vol 7, No. 3, issue 27, pages 40-45. There was a 1936-1969 Alabama Marriage Index published in AAFA ACTION, Fall 1995. Vol 8, No. 2, issue 30, pages 26-33 but this list does not contain a spouse name just the Alford, county and date. When the spouse was known that was incorporated into the list below. This list was compiled Jun 29, 2007.

The following marriage list is not a pure extract from some published list of marriages. It is not from a special or separate marriage data base. Rather it is part of the AAFA main data base that contains all types of information. It is the result of the association's long time collection of data. To the extent possible it has been enhanced by correcting name spellings, expanding initials, etc.

The data is not complete nor is it all correct. There are some records with incomplete or questionable date or place. We have included them with the hope you can help us.

It will be much appreciated when you send new entries (tell us your primary source when you do), corrections and information to expand on initials.

In most cases there are several recorded dates associated with a marriage such as the date of the bond, license, ceremony, record return to the county, etc. We have tried to select the most appropriate but if you don't agree then let us know about it. Write to AAFA, POB 1297, Florissant, MO 63031. Send email to (weird format to fool spammers) alford_association at sbcglobal dot net.

In the case of multiple marriages there is a number in front of the name of the spouse to denote the marriage number. If there is obviously a marriage not listed we have checked the data base to verify that it was not in Alabama. We may have missed some of these and will appreciate your feedback.

The place of marriage is abbreviated with the ST and a county abbreviation. The marriage date is shown as YYYYMMDD when the full date is available. ? or question marks anywhere means we are not sure. Check it closely before you use it. CA in the date field means we don't have the certain date but what is shown is close. One or more E's in a date means it is just an estimate. Lower case letters in the place of county is for a town where county is not known. Maybe you can help with that.
