

07/14/2006 07:34:40

The following marriage list is not a pure extract from some published list of marriages. It is not from a special or separate marriage data base. Rather it is part of the AAFA main data base that contains all types of information. It is the result of the association's long time collection of data. To the extent possible it has been enhanced by correcting name spellings, expanding initials, etc.

The data is not complete nor is it all correct. There are some records with incomplete or questionable date or place. We have included them with the hope you can help us.

It will be much appreciated when you send new entries (tell us your primary source when you do), corrections and information to expand on initials.

In most cases there are several recorded dates associated with a marriage such as the date of the bond, license, ceremony, record return to the county, etc. We have tried to select the most appropriate but if you don't agree then let us know about it. Write to AAFA, POB 1297, Florissant, MO 63031.

In the case of multiple marriages there is a number in front of the name of the spouse to denote the marriage number. If there is obviously a marriage not listed we have checked the data base to verify that it was not in Tennessee.

The place of marriage is abbreviated with the ST and a county abbreviation. The marriage date is shown as YYYYMMDD when the full date is available. ? or question marks anywhere means we are not sure. Check it closely before you use it. CA in the date field means we don't have the certain date but what is shown is close. One or more E's in a date means it is just an estimate.
