

From: Putnam Co. Ga. Tax Digests.

(Note: I did not complete my search here. Putnam's tax digests are missing for several years. Other notes for other years will be completed as soon as possible.

In these notes we see that Wm Alford was a tax payer in Putnam Co. in the year 1825, thus here is proof that he was here before 1825. The deed records, I think, will show exact year he located in Putnam.

(Note: I did not see Wm Alford's name in 1831 Digest. I have found that is true, in that day, in many cases. I can imagine it was rather difficult to locate and get every tax payer on the digest, if we reason that it was only a partially settled region. And, too, I doubt if the tax receiver was as diligent as in our day and time. And the tax paid was so small it seems incredible as compared with these days of the New Deal-Fair Deal Socialistic scheme of taxing and taxing more to make 'prosperity.')

(Note: These notes and others I mention may be duplicates or duplicated, in part at least, on other typed lists I have made. I have so many notes, I have not had the time to type and put together in some sort of order. And too I have other sources I want to complete before doing so. I mention this so that you may not be confused if you see more than one entry of what seems to be or may be the same facts.)
